Figma component	 Open in Figma
Status	Healthy

This card is used to highlight short pieces of information, where more information is accessible through a link. Use this card when an image is available for the linked content to enhance visual engagement.

Anatomy

- Light mode
- Dark mode

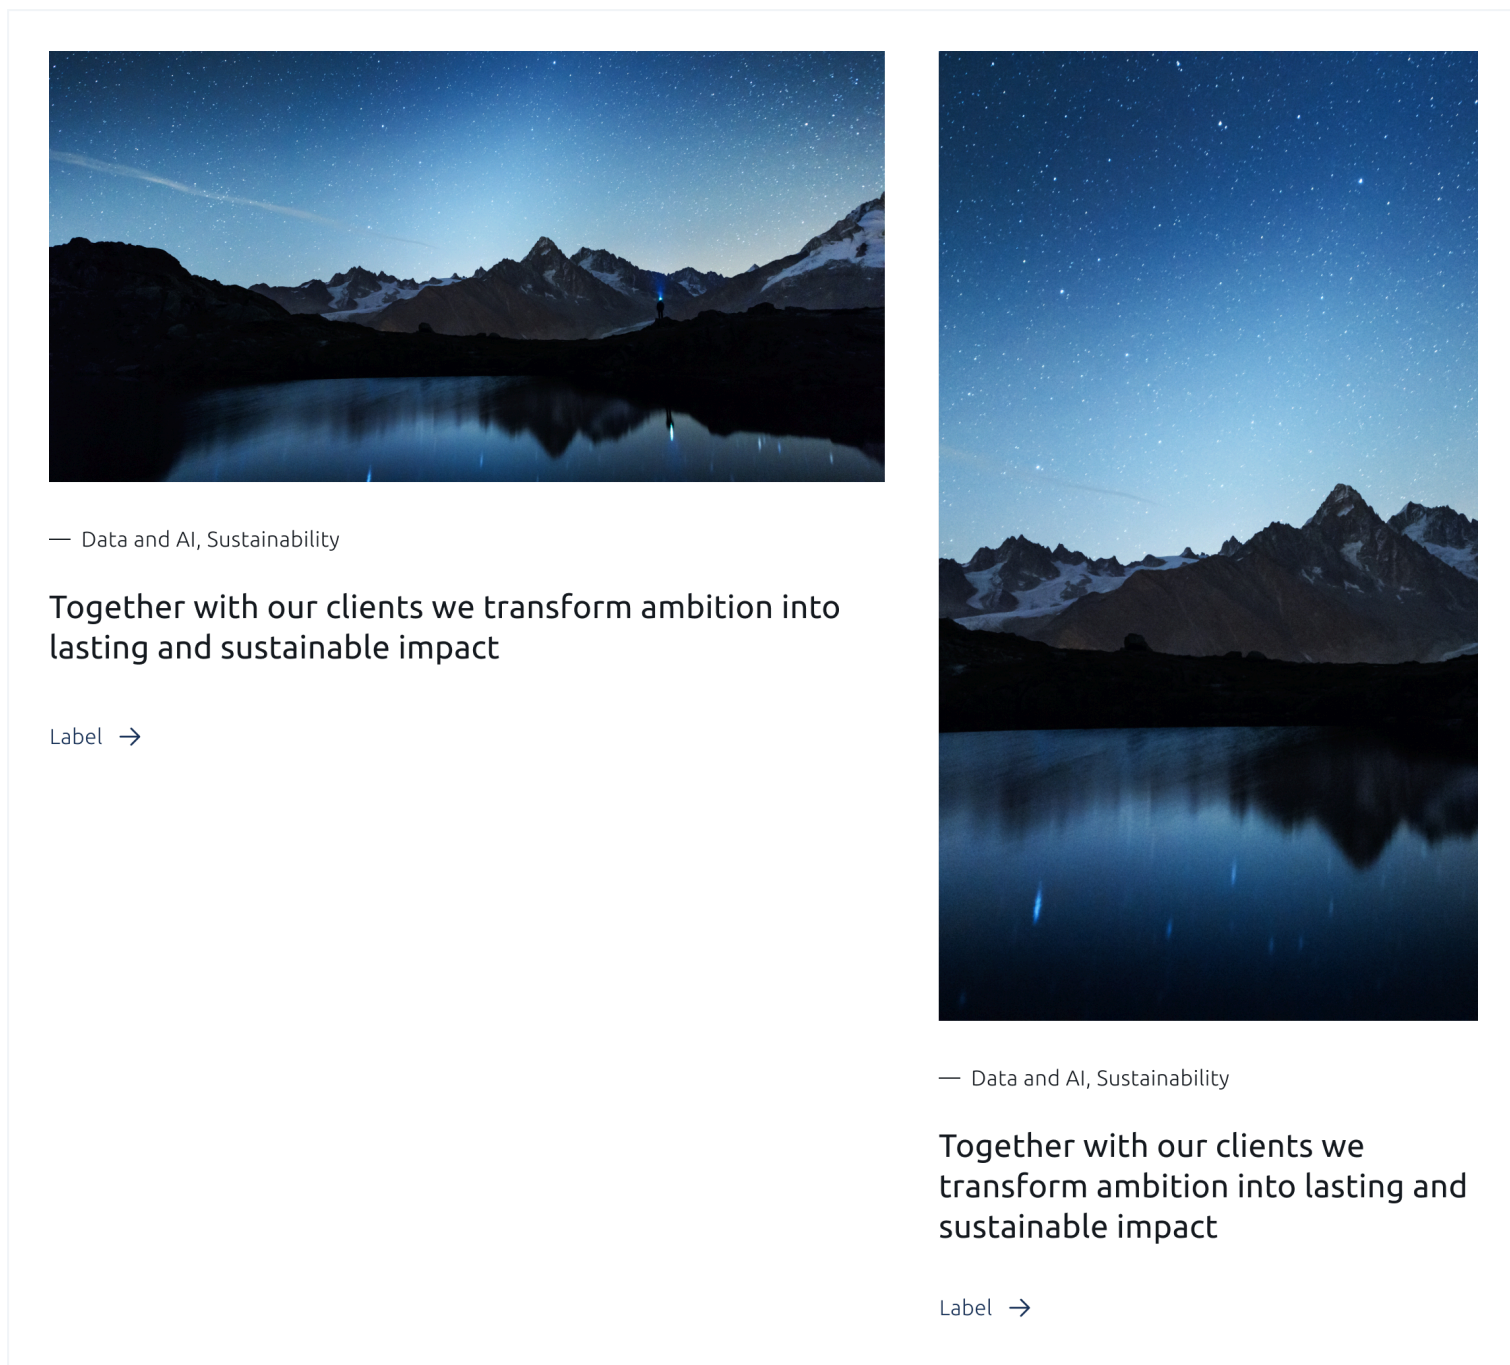

- 1. Image
- 2. [Eyebrow](#) (optional)
- 3. Headline
- 4. Tertiary [button](#): Links to detailed related information.

Variants

Regular and tall

Typographic cards are available in two main variants: tall and regular sized. Tall cards can be used when more space for images is desired.

The regular sized card (left) compared to the tall card (right).

Card compositions

The standard cards are used inside the following compositions:

1. [Card grid standard](#): Perfect for larger collections, this grid shows up to nine cards at once with an optional “Show more” to reveal additional cards up to a total of eighteen.
2. [Card grid horizontal](#): Ideal for avoiding long vertical stacks, this layout displays related cards side-by-side so users can quickly reach content further down the page.
3. [Card grid tall](#): Best for showcasing visually strong content, this layout highlights three tall-image cards in a clean horizontal row.

Turning bold visions into meaningful outcomes

At Capgemini, we believe the future is built on what we make real today. With deep industry expertise and leading technologies, we help organizations transform, grow, and innovate sustainably.
